

DAMME SHOPPING MALL

DAMME shopping mall in Riga, Latvia, was reconstructed in 2017-2018. It is the first project in Latvia where Ruukki delivered a full façade system – Ruukki Emotion. System includes Ruukki Energy sandwich panels, special ALU profiles with built-in LED lights and special perforated façade claddings.

The new mall occupies the area of 15 000 square meters and offers space for many shops and other facilities.

Ruukki's delivery: 2017-2018

- > Ruukki Energy sandwich panels: 650 m²
